

Omron robotic solutions

Complete automation expertise

Integrated robotics solution

Flexible manufacturing enabled by a seamless integration of robots and machine control

Omron's unique combination of software and control architecture addresses factory automation challenges, from producing a high volume high variety mix of products to short product lifecycles that require rapid production line changes.

Fully integrated control, software architecture and development environment meet current and future needs for process design, flexible operation and predictable maintenance. The flexibility and agility of our solutions is ideal for industries such as Food and Beverage, Automotive and Electronics.

- ✓ **Rapid changeover** with easy to use software that automatically generates code.
- ✓ **Application specific solutions** for **packaging** and **assembly** operations.

omron | adept

Complete automation expertise
80+ years of manufacturing automation solutions

Robotic solutions for your most demanding applications

Performance

Maximizing through-put by synchronizing machine control with new vision guided robots.

Smart
factory

Quick delivery

5 automated warehouses to provide parts quickly.

Simple

Shorten startup and maintenance time with our integrated software environment.

Efficient

Optimize productivity and efficiency by utilizing data collected from robots, controllers and sensors.

Flexible

Automatically generate new application specific programming code with our advanced ACE software.

The complete solution for factory automation and machine control

Over 200,000 products available

Control

- Machine controller, HMI and I/O
- Direct database connection for IIoT applications

Robots

- Parallel, SCARA and articulated robots
- Easy to use software to automatically generate code
- ePLC program the robot using common PLC language

Vision and measurement

- Quality control and inspection
- Product position and orientation detection for pick and place applications

Motion

- Rotary and linear servo motors
- Frequency inverters

Safety

- Complete safety lineup
- Light curtains, laser scanners, e-stop, door switches, safety mats and programmable safety controllers

Sensing

- Photoelectric, inductive, rotary encoder, mark and color, fiber optic and mechanical sensors

OMRON | adept

Feasibility studies
by leading experts in automation

Global collaborative network

Machine automation and robotics expertise provided by your global partner

40 Countries

150 Locations

3,000 Application Engineers

Give us a call. Send us your sample.

Our knowledgeable experts are prepared to support your application.

Simulations

Testing with real products

Real cycle time analysis

Let us help you with all aspects of your most demanding applications and provide a complete solution. Robotics, vision, motion and safety functions are simulated and tested in our global robotics and automation centers. We are ready to support you and all of your automation needs.

Robot lineup

Industry segment			Application	Parallel robots	
Food and Beverage	Digital	Automotive			
				Hornet 565	Quattro 650/800
			Primary packing	◆	◆
			Secondary packing	◆	◆
			Aligning, packaging	◆	◆
			Palletizing		
			Screw fastening		
			General assembling		
			Deburring and polishing		
			Dispensing		
			Measuring, inspection, testing		◆
			Machine tending		
			Dispensing		
			Measuring, inspection, testing		
			Material handling		
			Mounting	Ceiling	
			Payload capacity	3kg (8kg ^{*1})	6kg (15kg ^{*2})
			Radius	565mm	650 - 800mm
			Reach	---	---
			Position repeatability	±0.10mm	±0.10mm

*1. Without rotation axis
*2. Quattro650 using P30

Authorized Distributor:

Controllers & I/O

- Machine Automation Controllers (MAC) • Motion Controllers
- Programmable Logic Controllers (PLC) • Temperature Controllers • Remote I/O

Robotics

- Industrial Robots • Mobile Robots

Operator Interfaces

- Human Machine Interface (HMI)

Motion & Drives

- Machine Automation Controllers (MAC) • Motion Controllers • Servo Systems
- Frequency Inverters

Vision, Measurement & Identification

- Vision Sensors & Systems • Measurement Sensors • Auto Identification Systems

Sensing

- Photoelectric Sensors • Fiber-Optic Sensors • Proximity Sensors
- Rotary Encoders • Ultrasonic Sensors

Safety

- Safety Light Curtains • Safety Laser Scanners • Programmable Safety Systems
- Safety Mats and Edges • Safety Door Switches • Emergency Stop Devices
- Safety Switches & Operator Controls • Safety Monitoring/Force-guided Relays

Control Components

- Power Supplies • Timers • Counters • Programmable Relays
- Digital Panel Meters • Monitoring Products

Switches & Relays

- Limit Switches • Pushbutton Switches • Electromechanical Relays
- Solid State Relays

Software

- Programming & Configuration • Runtime
